

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

Claim 1-2 (cancelled)

Claim 3 (currently amended): The custom putter of claim 4 17 wherein said putter head is selected from a group including cavity back, blade and mallet.

Claims 4-8 (cancelled)

Claim 9 (currently amended): The custom putter of claim 4 17 wherein said bore and said recess are arranged at selected angles relative to the longitudinal axis of said body.

Claims 10-16 (cancelled)

Claim 17 (new): A custom putter comprising:

a putter head, formed of a first material, having a sole, a top, a back and a face each formed in a desired shape;

a polygonal shaped recess, having a bottom surrounded with vertical walls of approximately 2 mm in height, formed in said top;

a bore formed in said bottom of said polygonal shaped recess;

a hosel, formed of a second and different material, having an elongated rectangular shaped body of between 1 and 3 inches in length with an upper portion and a foot; said foot including an outwardly flared polygonal shaped shoulder having vertical sides of about 2 mm and a downwardly directed projection;

said hosel further including an elbow adjacent said upper portion, a receptacle being formed in said elbow;

a shaft of desired length and flex, said shaft being sized at a first end to fit into said receptacle and at a second end to support a grip; whereby,

said putter comprises said projection secured in said bore with said upper portions of said flared shoulder merged with said top of said putter head, said outward flared shoulder fitted into said recess with said vertical sides engaged against said vertical walls and said first end of said shaft secured in said receptacle uniting said hosel with said putter head and said shaft in a secure non-rotatable manner.

Claim 18 (new): The custom putter of claim 17 wherein said putter head is formed of one of plastic and metal.
